## *The Utopia Issue*

### Quotes from Utopia

Utopia is a fantastic read and a classical work of literature that everyone should spend some time with because it provides an interesting insight into the dangers of utopian ideals and ideologies. For this reason, I would like to share a series of quotes from Utopia that I have recorded and made available on my YouTube channel 'Heise Says'

[https://www.youtube.com/channel/UCe9Q\\_WLN-Z9tLVLoDIY24pg](https://www.youtube.com/channel/UCe9Q_WLN-Z9tLVLoDIY24pg)

"A pretty face may be enough to catch a man, but it takes character and good nature to hold him."  
- Thomas More, Utopia

"You wouldn't abandon ship in a storm just because you couldn't control the winds."  
- Thomas More, Utopia

"Pride thinks its own happiness shines the brighter by comparing it with the misfortunes of others."  
- Thomas More, Utopia

"there is nothing more inglorious than that glory that is gained by war"  
- Thomas More, Utopia

"Instead of inflicting these horrible punishments, it would be far more to the point to provide everyone with some means of livelihood, so that nobody's under the frightful necessity of becoming first a thief and then a corpse."  
- Thomas More, Utopia

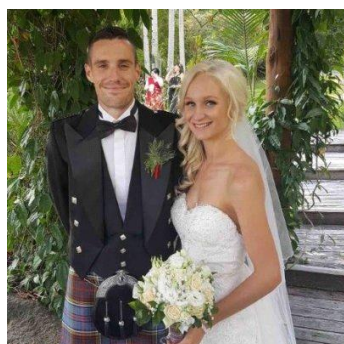

"Nobody owns anything but everyone is rich - for what greater wealth can there be than cheerfulness, peace of mind, and freedom from anxiety?"  
- Thomas More, Utopia

"Most people know nothing about learning; many despise it. Dummies reject as too hard whatever is not dumb."  
- Thomas More, Utopia

Full Name **Mr. Alastair Brook**

Company PDC

Job Title BIM Operations Manager

Bio Alastair Brook has over 10 years' experience working in construction management, design & construct, strategic estimating, draftsperson & building design, BIM and project management. He is currently based on site consulting to the Destination Brisbane Consortium in the position of Project BIM Manager. Destination Brisbane Consortium is delivering the \$3 billion Queens Wharf development, which will cover more than 26 hectares across land and water. <http://queenswharfbrisbane.com.au/> After completing his diploma and working as an architectural modeller creating large Revit retail & commercial projects, Alastair furthered his studies completing a Bachelor of Applied Science (Construction Management & Economics) with Honours, focusing on main contractor's views and perceptions of BIM; benefits, barriers & implementation strategies. He completed this degree while working as a strategic estimator on traditional, design & construct and public private partnership commercial construction bids, valued up to \$230M. His studies and industry experience have prepared him for his current position as Project BIM Manager, where his roles vary from the day to day management of BIM, through to the development and implementation of BIM plans and strategies, liaising with a variety of project stakeholders. His background of design and cost management allow him to specialise in utilising BIM, to add value and increase efficiency for the pre-contract and design management teams. Alastair is an active member of the Australian Institute of Building, previously holding the position as President of the Young Builders Alliance, an Australian Institute of Building initiative and currently representing them on the Australian Procurement Construction Council & Australian Construction Industry Forum BIM Summit. He also currently resides on the Central TAFE AEC BIM Qualification Industry Advisory Panel, as lecturing in BIM at Central TAFE, Curtin and Bond University.

Full Name **Mr. Ian Davis**

Company Venture Properties and Developments

Job Title New Home and Investment Property Specialist

Bio After being introduced to the concept of investment properties in the late 1990's, my wife and I saw the value in investment properties to create wealth. It became clear that many other people, particularly so-called "baby boomers", would never have sufficient funds needed to retire and enjoy a secure future. Clearly, the pension would not provide a quality lifestyle for many in retirement. We sold our business to concentrate on property and investing, and I became a ASIC licensed mortgage broker so that I could offer the most suitable home loan to borrowers for new homes, investment or other property purchases.

This then led to working with investment home sales organisations, builders and developers. During these times, I learned the home construction business and discovered the smoke and mirror tricks that a many of builders employ to get a sale. In 2014, I saw the need for transparency and honesty when working with new home buyers. Hence Custom Design Homes was borne. With my passion for all aspects of property, this has now brought about an amalgamation with small developments, home packages, and real estate sales. Specialties include : Custom designed home plans for unusual or sloping blocks of land. Build new homes that display home builders are not interested in taking on. Joint Venture property development projects and financing. "In house" Finance for residential and investment properties and Motor vehicle finance. Investment home , house and land packages procurement and sales Residential property sales

Full Name **Mr. Mark Drayson**

Company NX Disruption

Job Title Operations Consultant

Bio Keeping costs down, improving operational efficiencies & bringing results to the bottom line is a constant battle for any organisation.

Inefficiencies in supply, bad warehouse layouts, broken processes, incorrect inventories & poor planning lead to pressures on costs, impacts to organisations reputation to the customer & ultimately influences the profitability of organisation.

Getting it right First Time, Every Time is critical to an organisation and ensuring the customer is happy and keeps coming back for more as "Supply Chain & Operations are the heartbeat of an organisation."

I am a passionate Supply chain professional across all areas of supply chain management. I bring value to an organisation by managing change and supporting business, by driving down costs by optimising stock levels & reducing purchase costs. I can improve stock availability & utilisation, which in turn lifts customer service levels & brings back profitability to the business.

I have helped business improve efficiency by reducing back orders from 380 to 100, reduced inventories by 17%, Cut costs by \$700K. Delivered 1200sqm greenfield warehouse and wholesale shopfront, redeveloped a 1000sqm existing warehouse that increased pallet storage by 30%.

I bring 28 years of expertise across blue chip organisations large & small. Many are household names like Ansell, Laminex, Pacific Dunlop, Komatsu, Carrier Air-conditioning to name a few.

Let us get together and discuss how I can help improve your business.

Simply call me on 0407 120 616 and let us have a chat how we can help you soon!

Full Name **Mr. Dan Everett**

Company EVERETT Property Development Management

Job Title Development Manager

Bio Dan is a development manager involved in the development of property including from site selection, development strategies, feasibility studies, planning applications and construction of residential or commercial developments through to the ultimate purpose of the sale or lease of the land and/or buildings for profit. He has experience as a project manager, architect, principal's agent, superintendent and university tutor, in the property development and construction industries. Dan holds a proven reputation and aptitude for successfully delivering small to large developments of complex staging and procurement methods [residential, commercial, hotel, retail, office, refurbishment, tenant fit-out, high-rise and mixed-use] with budgets up to \$1Billion. Recently, Dan applied development & project management skills to delivering a shopping centre redevelopment, undertaking the DM role including principal's agent, lead consultant and superintendent. Drawing success from the implementation of a project management framework, effective cost controls, delivery strategies and risk identification and mitigation, Dan ensured the timely delivery of key milestones, quality control and adherence to budgets. As a Registered Architect, Dan has a clear understanding of the real estate development process, appreciating the underlining client motivations for investment and quality design.

Full Name **Mr Antonio Mendes**

Company Living Edge

Job Title Account Manager

Bio The benefit of moving from being a design based Introvert into Sales is that the process of overwhelm has been replaced by passion, a love and knowledge of product, a desire to serve instead of sell, a need to share quality, value and solutions with clients and that's just what I love to do.

To create a space that suits itself to not just work however a lifestyle, a feeling, a culture.

I have found in the past 13 years working with clients, the biggest challenges decision makers have are:

- \* LISTEN and understand clients requirements
- \* CREATE an appropriate space that is usable for what they want to achieve with the right solutions
- \* MAINTAIN long term relationships and service
- \* TRUST, Knowledge and guidance

Having a wealth of experience in architectural drafting, in both the exhibition and furniture industries over the last 20 years, including CAD drafting, designing for the exhibition industry, Project Management & Estimation, Team Management, I understand the process and the outcomes.

Some recent projects include: Energex, Commonwealth Bank, Hilton Hotel, Jupiter's Casino, University of the Sunshine Coast.

If you would prefer to work with someone who can understand and CREATE the perfect SOLUTION for YOU then let's talk.

Full Name **Mr. Rory OMalley**

Company DMA

Job Title Senior Hydraulics Designer

Bio I have over fourteen years experience in the plumbing construction industry. Seven of these years working as a plumber, drainer and gas fitter and seven years spent as a hydraulic services design consultant. Over this time I have worked on projects involving multi-story residential, commercial, retail, health and industrial buildings. My career commenced via a plumbing apprenticeship and has progressed through to a fully qualified plumbing tradesman, foreman, estimator, project manager, design draftsman, BIM designer and licensed QBCC hydraulic services design consultant. My Current role as a the hydraulic team leader / hydraulic services design consultant with DMA Engineers requires me to communicate well with project managers, architects, developers, local authorities, infrastructure networks, builders and plumbing contractors. Utilizing my previous on site plumbing knowledge, I bring a practical understanding of the build ability and implementation of hydraulics into every project, ensuring an efficient, cost effective and reliable design solution is achieved for my clients. I believe thorough knowledge through formal education, experience via practical application of skills and high level communication are key requirements for a successful hydraulic services designer. I have always had a passion for the plumbing industry and enjoy demonstration of my on site experience combined with technical knowledge. I am an outcome focused individual who takes great pride in achieving the best possible results for my clients. I have a high level of dedication to my work and enjoy interacting with clients and colleagues and am able to adapt quickly to new environments, understand different systems and procedures and work well autonomously as well as part of a team. I have a thirst for developing new skills and expertise and have a personal commitment to lifelong learning and development.

Full Name **Mr. Dai Reynolds**

Company Jim's Bookkeeping

Job Title Owner

Bio Are you in the one-third of SMEs in Australia who, according to research, are spending too much time doing their books to the detriment of their business? Another 18% said that their frustrations also come from the stress, cost and complications involved with doing their books, along with the fact that their accountant has to re-do some of their work regardless. This leads to loss of focus on your real purpose. You are probably the marketing manager, the production manager, purchasing manager, the finance manager & the HR manager. Having to do it all comes with a cost. Three main costs include: >> \$\$ costs to the bottom line >> opportunity cost of not focusing on the real earners in your business >> your personal or lifestyle costs. To re-focus on the drivers of your business & the joys of your family something has to go. You may need some help sorting out what you are best at & what you can get someone else to do. When John first contacted me for help with his BAS, Management Reports, and payroll management he was way behind in his ATO compliance, could not supply accurate report to his financiers and hadn't paid his statutory super for more than a year. That was a couple of years ago. I was able to get his super up to date and his staff now know that their super is up to date. We migrated to a cloud based accounting system which allows me to keep his accounts in order on a real time basis. John now gets monthly Management Reports that his bank requires. He focus is on business growth not calls from the ATO & bank. In my 30 years of owning, operating and managing my own and other peoples businesses I have always been passionate about the finance, administration & HR role. If you would rather be preparing presentations for a big contract or taking the kids to the footy give me a call today on 0419 026 673. We can have a confidential, free chat about how you can off load some of the important but time consuming jobs on your plate.

Full Name **Mr. Ryan Solomons**  
Company Mullins Lawyers  
Job Title Senior Associate (Dispute Resolution)  
Bio My current work has centred around acting in construction and commercial disputes for builders, churches and schools, retirement villages, online defamation, recovery work for liquidators, leasing disputes, and liquor, gaming and hospitality compliance. I also have experience handling commercial disputes involving professional negligence, insolvency, banking litigation, general property disputes, confidentiality, restraints of trade, and competition law, including misleading and deceptive conduct. I have a real focus on, and understanding of, the practical and commercial outcomes my clients are trying to achieve. I have represented a broad range of clients from individual business owners and company directors, through to ASX listed organisations. I also run training to help business be dispute ready and ensure that they have the best processes in place to limit the costs of or avoid disputes. I have held roles as a QA auditor and have helped train and mentor legal and non-legal staff. I also regularly present at internal continuing legal education seminars.

**Full Name** **Miss. Lindsay Toledo**

**Company** Ray White Spring Hill

**Job Title** Real Estate Agent

**Bio** Lindsay brings business and marketing expertise, high energy, passion and charisma to every real estate transaction. She understands the emotional and financial considerations of her clients and has the experience to guide them confidently through the selling process. Her affability and charm make her a compelling saleswoman who strives to ensure that her clients receive the attention and unprecedented service they deserve. Prior to joining Ray White, Lindsay worked as an Architect in her own business. Her company designed and built a vast portfolio of residential houses, retail spaces and clinics. Lindsay's impeccable work ethic and multitude of skills has produced a high performing professional who is never intimidated by difficult situations or tasks. Lindsay holds a Masters degree in Architecture, a Diploma in Marketing and a Diploma in Business. Fluent in English and Spanish, Lindsay has been successfully operating and selling in Brisbane's City and Inner West for the last three years.
